

Refraction unit

OPHTHALMIC UNITS

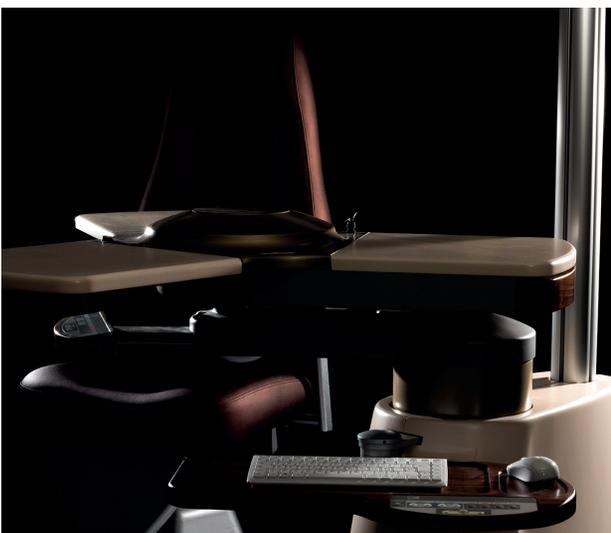

C.S.O. was established in 1967 as ophthalmological devices producer and soon becomes a world leader company for the production of a wide range of ophthalmological products.

The refraction units by C.S.O. are born at the beginning of the 90s to gather several ophthalmic devices in one solution characterized by harmonious lines, compact, ergonomic and long-lasting structure,

The C.S.O. refraction units are characterized by their practicality compatible with a wide range of devices for the modern ophthalmological diagnostic and they provide a pleasant daily working experience.

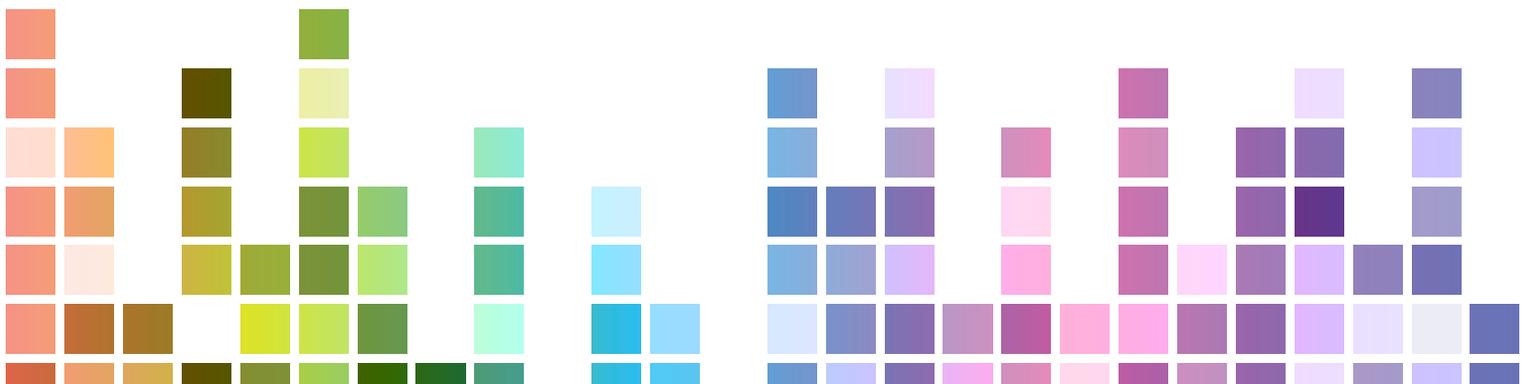

Thanks to an attentive selection of the materials used for the construction and a wide range of available colors and customizations, it is possible to realize a harmonious and comfortable working environment for the user and the patient.

Thank you for choosing C.S.O. as your supplier.

OPHTHALMIC UNIT
Elegance

REFRACTION UNIT

ELEGANCE it is a modern support station for 2 instruments fully compatible with a wide range of ophthalmic devices. The refraction unit is equipped with a practical and ergonomic command console which allows the optimal use of the instrumentation and gives the possibility to memorize all the working functions of the device for a fast and comfortable use. As the whole range of CSO ophthalmic units, ELEGANCE can be completely customized with a wide choice of colors.
